

Petition To Decrease North Braddock Borough Council

Petition summary and background	North Braddock's population steadily decreased since the 1930 census, but council size never decreased. North Braddock has the largest council in the Woodland Hills School District. The decrease would achieve a council less unwieldy in size, a council comparable in size to surrounding boroughs, a reduction in borough expenditures, and the expedition of the conduct at council meetings.
Action petitioned for	We, the undersigned, are registered elector concerned citizens who urge our leaders to act now to decrease North Braddock Borough Council from nine to seven members with two council members in each ward and one elected council member at large elected to four year terms.
